

## ALUMINIUM SCAFFOLDING - STAIRWAY 11 M TOWER HEIGHT

### Features:

- ACE Aluminium stairway scaffold tower is a professional solution using walk through frame with standard head clearance for safe entry and ascend to tower.
- Integral stairway and hand rail is perfect for frequently moving up and down and transporting materials inside the tower.
- Stairs are made of aluminium anti-slip profiles of 13cm deep and clear width of 42cm making it easy to carry materials and tools.
- Safe landing every 2m.
- Safe working load of 270kg per platform level up to a maximum of 750kg per tower (including tower self-weight).
- Easy assembly and dismantling of tower.
- Easy detachable handrails available for both side of stairs.
- Equipped with standard platform (2nos) and trapdoor platform (1no) provides a larger working area width of 200cm at the top working level, with easy attach toe boards.
- Width available: 1.4m, 2m, Length available: 2.5m, variable heights.

Our access equipment products are manufactured to BS EN.1004 Standard.
